PROFESSIONAL SUMMARY

As a full-stack software engineer, I value teamwork and consistently deliver quality work on time. Completing the Northcoders Boot Camp has increased my passion for learning, and I am eager to face new challenges in the ever-changing tech field. Driven to create social change, I am determined to make a positive impact on the world.

SKILLS

Languages: JavaScript using Node.js, TypeScript
Testing: Test-Driven Development (TDD) using Jest and Supertest.
Back-end: SQL, PSQL, MongoDB
Front-end: HTML, CSS, React, Tailwind CSS
Hosting: Cloudflare, Netlify
Soft skills: paired programming, technical communication
